Spania

Type: Musserende Vin, Cava

Produsent: Pere Ventura i Familia

Om produsenten: I 1992 begynte Pere Ventura Vendrell sin drøm om å produsere viner akkurat slik hans familie hadde gjort siden 1898. Vingården ligger i Cavas hovedstad Sant Sadurní d'Anoia, Penedès, 35 km sør for Barcelona. Druene kommer fra vinmarkene i Nedre Penedès og Sentral Penedès, administrert av Pere Ventura viticultural team. Vinrankene dyrkes på en bærekraftig og miljøvennlig måte. Jordsmønster er fattig på næringstoffer, godt drenert jord, og ligger på høyde rundt 250 meter over havet. Maksimal avkastning av 12.000 kg / hektar.

Vinifikasjon / Produkjonsmetode: Pre-fermentation maceration using the bleeding method, in which the free run juice and the skins macerate for 12 to 18 hours at a temperature of 12 - 14 °C, in order to extract color and bring out the grape's potential aromas. Static settling and fermentation in stainless steel vats at 15 - 17°C. Second fermentation in bottle respecting the traditional method.

Lagring: 15 months on average in underground cellars.
