Type: Red Wine,

Producer: Cantina Levorato Srl

About the Producer:

Our company operates with a solid administrative and productive structure, consisting of high-qualified personnel in all operational areas. Commitment, expertise and constant updating with the most recent technologies represent the basis for the service we provide to our customers.

Much has happened in 2020. We have had to change our habits, the way we live and how we think. We have become increasingly more aware of the sustainability of everything around us. It is up to us to respond to this new awareness, continuing to follow a path paved with years of hard work and dedication to our raw material, "wine", and meeting all the new requests made by the market. With this in mind, we have obtained organic certification this year for a new line of products that we will shortly be offering to our clients, certification that makes us proud of the quality of our products. And preparation is already under study of a new e-commerce sector for tangible diversification of logistics and sales tools, enabling us to maintain contact with all our clients, whatever the situation.
